<p><i>In some instances, fees may be waived. GRAMA encourages waiving the fee when the request benefits the public rather than a specific individual. GRAMA also encourages the waiver of fees if the requestor is the individual who is the subject of the record - or the guardian. Because GRAMA provides for waivers, a government entity cannot simply state that it will never grant fee waivers. A person who believes that there has been an unreasonable denial of a fee waiver may appeal the denial. If a requestor has not properly paid for previously requested materials, NDFD will hold the current request until the outstanding payment is paid in full for previous requests.</i></p>

DRAFT

June 14, 2022

Effective date: July 1, 2022

A ground ambulance or paramedic provider is only allowed to charge a fee for transporting a patient when the patient is actually transported. However, this does not apply to licensed ambulance providers, licensed paramedic providers, or designated quick response providers who respond to a medical assessment in a geographic service area which contains a town as defined in Utah Code Annotated Title 10-2-301(2)(f).

Pursuant to Utah Code Annotated Title 26-8a-403 and Administrative Rule R426-8-200 the allowable ambulance rates beginning July 1, 2022 are:

Base rates

Ground ambulance: \$1,000.00 per transport

Advanced EMT ground ambulance: \$1,320.00 per transport

Advanced ground ambulance (licensed as an EMT-IA ambulance provider prior to June 30, 2016): \$1,625.00 per transport

Paramedic ground ambulance: \$1,930.00 per transport

Paramedic on-board (paramedic not employed by the licensed ambulance provider): \$1,930.00.

Mileage rates

The standard mileage rate is \$38.75 per mile or a fraction thereof. In all cases, mileage shall be computed from the point of pick-up to the point of patient delivery.

Fuel fluctuation rate changes may be granted when diesel fuel exceeds \$5.10 per gallon or when gasoline exceeds \$4.25 per gallon as invoiced; a surcharge of \$0.25 per mile traveled may be assessed.

An off-road rate may be charged when an ambulance is required to travel 10 miles or more on unpaved roads. A surcharge of \$1.50 per mile may be assessed.

DRAFT

Supplies and medications

A licensed ambulance provider may charge for supplies and for providing supplies, medications, and administering medications used on any response if (1) supplies and medications are priced fairly and competitively, (2) the individual does not refuse service, and (3) the licensed personnel for the licensed ambulance provider assess or treat the individual.

MITIGATION RATES BASED ON PER HOUR

*(Per agreement with Fire Recovery USA)
Resolution Number 2019R-04*

The mitigation rates below are average “billing levels”, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These rates are based on actual costs using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance). Labor rates include an average department’s actual burdened labor costs and not just a firefighter's wage. These include wages, retirement, benefits, workers comp, etc.

MOTOR VEHICLE INCIDENTS

Level 1 - \$537.00

Provide hazardous materials assessment and scene stabilization. This will be the most common “billing level”. This occurs almost every time the fire department responds to an accident/incident.

Level 2 - \$613.00

We will not bill at this level if the patient is simply unconscious and fire department is able to open the door to access the patient. This level is to be billed only if equipment is deployed.

Creating a Landing Zone - \$495.00

Includes Air Care (multi-engine company response, mutual aid, helicopter). We will bill at this level any time a helicopter landing zone is created and/or is utilized to transport the patient(s).

Itemized Response: You have the option to bill each incident as an independent event with custom mitigation rates, for each incident using, itemized rates deemed usual, customary and reasonable (UCR). These incidents will be billed, itemized per apparatus, per personnel, plus products and equipment used.

MISCELLANEOUS / ADDITIONAL TIME ON-SCENE

MITIGATION RATE NOTES

The mitigation rates above are average “billing levels”, and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

These average mitigation rates were determined by itemizing costs for a typical run (from the time a fire apparatus leaves the station until it returns to the station) and are based on the actual costs, using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance) and labor rates (an average department’s “actual personnel expense” and not just a firefighter's basic wage). The actual personnel expense includes costs such as wages, retirement, benefits, workers comp, insurance, etc.

Fire Recovery USA agrees Company agrees to bill the responsible party on the Client’s behalf for services provided/rendered during motor vehicle incidents and other emergency incidents. The Mitigation Rates lists in Exhibit A will increase by 1.5% annually or based on the annual percentage increase in the Consumer Price Index (CPI), as developed by the Bureau of Labor Statistics of the U.S. Department of Labor, whichever is more. Rate adjustments will occur on the anniversary date of this ordinance/resolution to keep the fire department's cost recovery program in conformity with increasing operating expenses.
